Cardiac Risk Profile – Cholesterol Screening

Do your employees know if they're at risk of having heart, liver, or kidney disease? Have they been tested for diabetes? Has it been a while since they have had their cholesterol tested? Now is the time to schedule this screening that can have a positive impact on the lives of your employees.

Setting up an event for your employees takes 2 simple steps:

- 1) Select a date and reserve a room.
- 2) Send out an email to all your employees. SARMC will create a flier and an online sign up link so people can sign up without having to call HR.

Cost: \$25.00 per person.

Cardiac Risk Profile tests for the following:

Cholesterol – Triglyceride – HDL – LDL – VLDL – Cholesterol /HDL Ratio – Glucose – Urea Nitrogen – Creatinine – Sodium – Potassium – Chloride – CO2 – Calcium – Total Protein – Albumin – Globulin – Bilirubin – Alkaline Phosphatase – AST (SGOT) – ALT (SGPT)

In addition to the Cardiac Risk Profile, the following blood tests are also available without a prescription:

PSA – Prostate Screening.....	\$25. ⁰⁰
TSH – Thyroid Stimulating Hormone.....	\$15. ⁰⁰

The following blood tests are also available with a prescription:

CBC – Complete Blood Count (White/Red Blood Cells Count).....	\$9. ⁰⁰
Blood/Lead – Lead Level in Blood.....	\$16. ⁰⁰
FT4 - Free T-4 (Hypo- or – Hyper Thyroid).....	\$10. ⁰⁰
Iron.....	\$ 9. ⁰⁰
HSCRIP.....	\$25. ⁰⁰
CRP (C Reactive Protein).....	\$12. ⁰⁰

**For insurance questions
please contact Kellie
Wirth.**

This is a fasting blood draw – NO food or beverage 12 hours prior to the test. Water and coffee OK just no cream or sugar. It is recommend that the employer provide a small breakfast that employees can enjoy after that test.

Results along with an educational packet are mailed to each persons home with in 10 business days.

Administered By: Saint Al's & Treasure Valley Lab.
