Colleague Resource Groups (CRGs) leverage the unique strengths and experiences of colleagues to impact business innovation, colleague engagement, and community outreach. Participation provides colleagues the opportunity to network across the Ministry and develop leadership skills.

These colleague-led groups are made up of individuals who come together based on similar interests or experiences. CRG participation is voluntary and open to all colleagues who are interested in and support the objectives of the CRG, regardless of their origin or background.

JOIN A CRG TODAY!

Follow your passion(s) and join any of the seven Colleague Resource Group categories offered at Trinity Health. There are more than 30 unique CRGs that represent the seven categories below:
