Saint Alphonsus Primary Care

Establishing a relationship with a primary care provider offers continuity of care and support for the entire family. They help you stay healthy with routine preventive screenings that identify health concerns early for better outcomes, as well as help you manage existing conditions better. Saint Alphonsus primary care providers take the time to listen to your concerns, to better understand your needs and help guide you to making healthier lifestyle choices.

Services include

- Chronic disease management
- Cold, flu & minor illness care
- Immunizations
- Medication management
- Preventive screenings
- Weight management & nutrition
- Women’s health
- Pediatrics
- Specialty referral
