# ABOUT ERIC PALFREYMAN, MD

Dr. Palfreyman is a Boise native. He received his undergraduate degree from Brigham Young University, his medical degree from the University of Utah School of Medicine and completed both his Internal Medicine Residency and Rheumatology Fellowship from University Hospitals Case Western Medical Center in Cleveland, Ohio. Upon completion of his fellowship thirteen years ago, he relocated back to the Boise area with his wife and children where he has been practicing rheumatology as an independent

rheumatologist with his partners, Drs. Lagwinski and Meier at the Idaho Arthritis Center. Dr. Palfreyman and his partners are passionate about providing timely and efficient care to their patients. At the Idaho Arthritis Center, new patients wait only 2-4 weeks to be seen, potentially only one week for patients suspected of having rheumatoid arthritis. Having an in-house laboratory, diagnostic and therapeutic ultrasound and infusion center make receiving rheumatology care convenient for their patients.
