educational
recordings

HOPE:

Healthy Options for Prevention Excellence

Focus is on education about evidence-based dementia risk reduction strategies.

HEART:

Holistic Evidence-based Alzheimer's and Related dementias Treatment

Focus is on education about obtaining early diagnosis and creating a comprehensive holistic evidence-based care plan for treatment of dementia.

PEACE:

Palliative Excellence in Alzheimer's and related dementias Care Efforts

Focus is on education about palliative care for individuals with dementia that includes approaches to promote safety, delay institutionalization, prevent and reduce agitation and improve end of life care.
