CARE PHILOSOPHY

"I hope to treat each person I care for like family. I strive to make sure people understand their condition, give them their options, and then help them decide for themselves what is the best course of action."

CONDITIONS TREATED & PROCEDURES PERFORMED

- Joint and soft tissue injections (corticosteroid, hyaluronic acid, biologic/PRP)
- Ultrasound-guided procedures for accurate diagnosis and treatment
- Concussion evaluation and management
- Musculoskeletal ultrasound (diagnostic imaging for injuries)
- Exercise prescription and rehabilitation planning
- Non-surgical management of arthritis and joint pain
- Management of tendon, ligament, and muscle injuries
- Injury prevention programs tailored to age and activity level
- Return-to-play assessments for athletes at all levels

MEDICAL SCHOOL

- Midwestern University Arizona College of Osteopathic Medicine

FELLOWSHIP
