

How to access the Health Informatics Training Center

Access the Saint Alphonus campus from Curtis Road (1055 N. Curtis) stay right at the Round-a-bout and cross under the Sky Bridge. After parking enter through the Main Entrance.

Main Entrance:

- Go right, past the lobby and down the long hall. (To the South Tower)
- At the Golden Circle of lights in the ceiling, turn left.
- Proceed down the hall and enjoy our historical photos.
- Take the first hall on your right (*if you are under the second Golden Circle of lights and see elevators you have gone too far.*)
- As you proceed down the short hall, past the Restrooms and Volunteer Office you will see a set of double doors – press the button on the wall to open the doors or use your name badge to open the door but (step off the black mat.)

What to expect in the Training Center:

- Bathrooms are outside the double doors. (You passed them on your way in.)
- Please **no food** in the training rooms, drinks should have a lid to minimize damage from accidental spills.
- The rooms are old operating rooms and the temperature is very difficult to control. We strongly recommend dressing in layers. The temperature tends to be 60 degrees or 85 degrees so please come prepared for rapid climate changes.
- We do not have housekeeping in the training center; those booking the room are responsible to keep it clean. We do not have anyone at the front desk so a sign on the bulletin board directing people as they come in is helpful. Any signs put up need to be taken down at the end of class.
- Remember to turn off the lights and the projector when leaving.
